Appealing Disciplinary Actions:

Discipline is based on the issuing officers' discretion.

Discipline does not have to be issued in a progressive order.

Discipline may be issued concurrent to a current/active discipline or consecutive to a current/active discipline.

1 – The inmate will use the grievance form on the pod kiosk and **fully explain** his/her reasoning the disciplinary action should not be enforced. This needs to be assigned to the jail staff, whose name is on the Disciplinary Notice, by the inmate doing the grieving. Any grievance needs to be submitted within 24 hours of the Disciplinary Notice being issued.

Any witnesses for the grieving inmate, may submit statements via the kiosk using the request system and assigning that statement/request to the jail staff that issued the discipline. If the statement is not assigned to the appropriate jail staff, the statement will not be accepted. Any statements issued via the request system will be compared to statements given at the time of the incident and with any video.

2 –The jail staff who issued the discipline will review the electronic submission and may dismiss or reduce the disciplinary action. This action will be final and there will be no further appeal.

3 – If the jail staff, who issued the discipline, does not agree with the inmate regarding the discipline issue, the inmate may appeal, by using the grievance form on the pod kiosk, within 24 hours. This appeal of the grievance must be assigned to the Sergeant who covers the shift of the jail staff who issued the disciplinary action by the inmate appealing the grievance. The inmate needs to fully explain why they are appealing the discipline.

4 – The Sergeant will review the electronic submission and if the disciplinary action is validated by the Sergeant, the inmate may appeal the decision, using the grievance form on pod kiosk by fully explaining why they are appealing the discipline, and assigning the appeal to the Lieutenant within 24 hours. The inmate appealing the grievance must assign the grievance to the Lieutenant. If the disciplinary action is reduced or dismissed by the Sergeant there is no further appeal and the action is final.

5 –The Lieutenant will review the electronic submission and the decision by the Lieutenant is final in **Minor Infractions** and not subject to further appeal unless the Lieutenant issued the discipline. In such a situation the inmate may appeal to the Hearing Officer for a Minor Infraction disciplinary action using the pod kiosk within 24 hours. To appeal to the Hearing Officer you will have to use the pod kiosk and use the grievance form, fully explain why you are appealing the discipline, and assign the appeal to the Jail Lieutenant. The Jail Lieutenant will forward the grievance to the Hearing Officer.

6 – If the disciplinary action is for a **Major Infraction**, the inmate will follow the same grievance procedure as they would in a **Minor Infraction**.

7 – If the inmate does not agree with the Lieutenants decision, the inmate will fill out a grievance form, using the pod kiosk, fully explain why you are appealing the discipline, and within 24 hours assign the grievance to the Lieutenant. The Lieutenant will forward the grievance to the Hearing Officer. If the Lieutenant dismissed or reduced the discipline there is no further appeal.

7 - The Hearing Officer will meet with the inmate. The decision of the Hearing Officer is final.

8 – IF an inmate has lost phone privileges or even all Kiosk access, all grievances may have to use a paper ICF and will follow the above rules of procedure. In some cases an inmate may have to use an ICF to appeal a Major Infraction to the Hearing Officer.

9 – **If you have a medical grievance you will need to use the Kiosk and direct the grievance to the Lieutenant.** Medical Grievances go directly to the Jail Lieutenant and are not subject to further appeal after investigation by the Jail Lieutenant.

10 – If you lose your phone privileges you may lose visitation, commissary, and email access.

11 – If you lose all kiosk privileges, your grievance must be filed via an ICF, and you must follow the procedure listed above.

12 - Inmates must **strictly** complete each step of the grievance process to have properly exhausted the jail’s administrative remedies.

13 - Making complaints in “kites,” letters, conversations with staff, and other communication cannot be substituted for strictly complying with the requirements for properly filing and processing grievances.

If an inmate on active discipline is transferred to another facility due to population issues in this facility, or is transferred to a treatment facility, mental health facility, hospital, etc., the discipline will be suspended while that inmate is at the other facility. Upon return to this facility, the discipline will be reinstated.

Grievances filed for any other reason, including medical, must strictly follow each step of the above listed grievance procedure.

Grievances must be filed, within 24 hours, of when you noticed a concern that is grievable.

Grievances are NOT constitutional a right. Abuse of the grievance procedure may result in an inmate being denied future grievances.

All sales are final.

You shall be responsible for maintaining your commissary, phone, email/text balance.

There is no monetary limit on weekly purchases of commissary items.

No money may be transferred between inmate accounts.

Money placed on an inmates account is the property of that inmate and is subject to applicable state and federal banking laws.

Inmates may not release their funds to any other individual. (This does NOT include the withdrawal of funds from an inmates account to satisfy medical expenses, or damaged property expenses, or expenses incurred while in this facility)

Visitors will be able to add funds to your account by using the kiosk in the lobby or by going to www.jailatm.com. The lobby is locked after 7:30 PM during the week, and all day on weekends and holidays.

50% of your incoming money will be applied to any outstanding medical bills.

Commissary purchased and removed from this facility and taken to another facility will not be accepted on the jail floor upon your return to this facility.

Commissary from another facility will not be accepted on the jail floor of this facility.

Inmates will not request the commissary of another inmate that has been or is going to be released.

If an inmate has family or friends put money on another inmates account to avoid paying medical fees, or for any other reason, the money put on an inmates account is the property of that inmate and is subject to the banking laws of the United States and the State of Kansas.

Medical Services

Jail staff **can not** discuss your medical condition with your family, friends, or attorney unless court ordered, or there is a release of information from the inmate and allowing another person to discuss your medical condition with jail or medical staff.

Inmates **DO NOT** have the constitutional right to pick who provides medical services while they are in jail.

Inmates can refuse the offered medical treatment. However, that does not allow inmates to pick and choose who provides them medical treatment.

If an inmate comes in with a prior non-emergency medical issue, the Ellis County Jail and medical services is not obligated, nor constitutionally required, to make the inmate “whole” again.

The Ellis County Jail and medical services are only required to maintain and not “make whole” an inmates health at the time of acceptance.

Inmates who become ill or injured are entitled to medical care (**this does not guarantee choice of treatment**).

The jail nurse will be available Monday through Friday, in the mornings to see inmates who have submitted a Sick Call Request Form, stating a health problem. **There is a \$10.00 administrative fee** for this service.

There is a \$10.00 administrative fee for each prescription ordered by the Ellis County Jail Medical Provider and for each refill.

There is a \$25.00 administrative fee for Dental and other offsite medical services. Offsite requests must be approved by the Ellis County Jail Medical Provider unless there is an emergency. Inmates will not be charged a \$25.00 administrative fee for a **VALID** emergency medical service.

Inmates who are financially able to pay for medical care and prescriptions will be responsible for the cost of these services.

If the inmate is indigent at the time of service and later receives funds for his account, 50% of incoming money will be used to pay for the medical service before it is used for commissary purchases.

If you have Medical Insurance, please let Jail Staff know.

Inmates on Medicaid and/or Medicare are not allowed to use those services in this facility due to state fraud regulations.

No inmate will be denied medical service because of lack of funds.

Feigning an illness or medical condition will result in disciplinary and/or legal action.

Inmates incurring medical expenses for treatment will have those expenses added as a debit to their account.

Inmates are expected and/or required to repay Ellis County for their medical expenses.

After an inmate has been released, Ellis County has the option of seeking repayment for medical expenses, via Court Order, Small Claims Court, Civil Court, or through a Collection Agency.

Medication

Prescription Medications will be administered at 8:00 AM and 8:00 PM.

All medication must be taken at the time it is dispensed with water if your medication is taken by mouth.

You will swallow the prescription medication in the presence of the jailer or nurse.

You will be asked to open your mouth so that the jailer or nurse may see that it was swallowed.

Saving medication of any kind is a serious infraction.

Creams must be used before you will be issued another.

Jail staff are not allowed to issue over the counter medication issued unless approved and ordered by the jail physician.

Your family may bring your prescription medication (subject to approval by the Ellis County Jail medical provider, and Medicare/Medicaid rules), eye glasses, contacts, and/or contact lens solution, to the Sheriff's Department. Contacts and contact lens solution must be in unopened containers.

Your medications must be approved by the doctor contracted to serve the Ellis County Jail before you will be allowed to have the medication administered to you.

For medical problems or symptoms not described below, please complete a Sick Call Request Form to see the physician or nurse.

PATIENT MEDICAL EDUCATION

This information is designed to assist inmates in identifying and treating common ailments. It is strongly recommended an inmate seek medical attention if a problem persists or you experience additional symptoms.

COMMON COLD

The common cold is caused by many different types of viruses and is not serious. The usual symptoms include sneezing, stuffy nose, watery nasal discharge, scratchy throat and cough. You may feel achy, tired and have a headache. Colds are not cured by taking antibiotics like penicillin. A cold must run its course. Symptoms are usually worse the 2nd & 3rd days and should stop within 4-7 days. A cough may last longer than this, especially if you smoke.

Adults average 2-4 colds per year. Colds usually occur more in the fall and winter. The viruses which cause colds are spread mostly by drainage from the nose, coughing and sneezing. You should cough and blow your nose into paper (Kleenex or toilet paper) and throw it into the trash can right away. Try not to get really close to anyone coughing or sneezing who does not cover his/her mouth. ALWAYS wash your hands after you blow your nose or sneeze.

Do the following if you have a common cold:

1. Drink lots of fluids especially clear fluids such as water.
2. Stop smoking. Smoking can make your cold worse. Smoking can cause respiratory problems and cancer.
3. May take 2 Regular Strength Tylenol tablets for fever, headache, and aches and pains associated with a cold. Antibiotics are not indicated for treatment.
4. Rest as much as possible.

You may need some medications to relieve some of the symptoms. If your symptoms get worse put in a sick-call request to see the medical department.

GAS, BELCHING & HEARTBURN

Eating gas-forming foods and swallowing air while you eat can cause gas. Do the following if you have gas:

1. Take 1-2 antacid tablets for heartburn, or gas, up to 4 times a day if needed.
2. Avoid gas-producing foods.

3. Chew foods slowly.

INDIGESTION

Eating gas-forming foods or swallowing air can cause indigestion; it usually is not a serious condition. Cabbage, coffee, tea, carbonated beverages may cause gas. Do the following if you have gas:

1. Avoid eating foods that cause problems.
2. Avoid overeating.
3. Remain in an upright position 1-2 hours after eating.
4. Chew your food well and avoid eating fast.
5. Avoid chewing gum which creates air in your stomach.
6. Avoid eating 1-2 hours before bedtime.
7. Stop smoking. Smoking increases acid production.
8. Take antacids: 2 tablets between meals and at bedtime.

NAUSEA AND VOMITING

Nausea and vomiting can have many causes. The stomach flu is a common cause and does not last for more than 24-36 hours. Diarrhea may also develop. If you are sick to your stomach or throwing up, you should do the following:

1. Drink only clear liquids for the next 24 hours.
2. Drink small amounts or sips if you cannot keep anything down.
3. Don't take aspirin, laxatives or antacids while you are sick to your stomach.
4. Rest for 24 hours.
5. When you are feeling better, start eating food gradually.
6. Do not eat a lot of spicy, greasy foods at first.

See the nurse if:

You don't feel better in 24 hours.

You can't keep any liquids down.

You start vomiting up blood.

You get a fever and increased stomach pain.

URINARY DISCOMFORT

Urinary discomfort is common in females. It is caused by bacteria entering the urinary system through the tube leading to the bladder where the urine is kept. Ways to prevent urinary discomfort:

1. Drink 8 glasses of fluid per day.

2. Limit drinking caffeine drinks while having symptoms.
3. Urinate when you feel the urge.
4. Don't hold urine for long periods of time.
5. Avoid activities (masturbation) which cause friction to the urine outlet.
6. Take all medications until gone.

The symptoms of an infection should begin to get better in 24-36 hours after starting an antibiotic.

TOOTH DECAY & GUM DISEASE

Tooth decay and gum disease begin with plaque. Plaque is a sticky, invisible film containing bacteria. It is the major cause of tooth decay and gum disease. It is constantly forming over the teeth. How does plaque cause cavities?

1. When you eat sweet foods, the bacteria in plaque combines with sugar to form decay acid which attach to the enamel on your teeth.
2. The cavity grows larger as it enters the dentin.
3. Decay weakens the enamel further and reaches the sensitive layer of the tooth.
4. If decay is not checked, an abscess may occur or the bone may become infected.

How does plaque cause gum disease?

1. Plaque collects beneath the gum line and irritates the gum tissues. This may cause your gums to bleed when you brush.
2. If plaque isn't removed, it becomes hardened and forms tartar increasing the irritation to your gums.
3. Plaque will begin to destroy the tissue holding the gums to the teeth. Brush to remove plaque.

1. Prevent tooth decay and plaque by brushing.
2. Hold your toothbrush at a 45-degree angle to the gum line.
3. Brush back & forth with short strokes, covering 1-2 teeth at a time.
4. Brush the back of your teeth – inside & outside.

HEADACHE

Most people have headaches. Most headaches are not serious. Many things can cause headaches – tension, sinus congestion, caffeine, smoking, medications and high blood pressure. Do the following if you have a headache:

1. Avoid whatever causes your headache.
2. Take 2 Tylenol tablets 2 times a day.
3. Use moist, cool cloths if this helps relieve the headache.

4. Rest. Don't watch TV. Avoid noisy interaction.

SORE THROAT

Viruses cause most sore throats – antibiotics cannot kill a virus. It takes 4-7 days for a sore throat to get better. Do the following if you have a sore throat:

1. Gargle with warm, salty water several times a day.

Do not swallow the salty water.

2. Drink plenty of fluids.

3. Take 2 Tylenol tablets for fever and pain 2 times a day.

4. Stop smoking.

Return to the nurse if conditions get worse or you have no relief.

SPRAIN

Stressing or twisting a joint or body usually causes a sprain. Swelling usually occurs and can cause pain. Do the following if you have a sprain:

1. Keep the injured area elevated for 48 hours. This decreases the swelling and throbbing.

2. Use cold-water cloths on the area for 24 hours and avoid using.

3. Take Tylenol 2 times a day for pain.

4. Notify the medical unit if numbness, tingling, cold or blueness appears to the area below the injury.

SKIN RASH

Many things can cause rashes:

- Plants – chemicals - medications - infections

Often it is impossible to identify the cause of a rash. The treatment for a rash is to remove what is causing the rash and to relieve symptoms.

Do the following if you have a rash:

1. Wash or bathe in cool water only.

2. If you know what it is, avoid the cause of the rash.

3. Notify medical unit if symptoms of infection occur:

Increased redness or swelling, pus formation, heat, red streaks, increased pain or the rash is spreading.

ACNE

Acne is a buildup of oil at hair roots and oil glands. Acne may be blackheads, whiteheads or pimples. There are some factors that cause acne to be worse: some foods, hormones, stress

and contact with irritating or oily substances may cause breaking out to get worse. Do the following if you have acne:

1. Wash your face and any other area that breaks out at least 2-3 times a day. Use mild soap and don't rub hard.
2. DO NOT squeeze or pick the pimples, this may cause them to get worse or infected.
3. Wash your hair at least 3 times a week and don't use oils on your hair.
4. Eat a balanced diet.
5. Don't use oily make-up or creams on your face.

DANDRUFF

Dandruff can be normal scaling off of the top layer of your scalp. It can also be caused by seborrhea, which causes an increase in the amount of oil made by the oil glands around the hair roots. Dandruff can usually be treated by using a dandruff shampoo. Do the following things:

1. Shampoo hair 2-3 times weekly in cool or barely warm water.
2. Use dandruff shampoo. Make sure you rinse out all the shampoo.
3. The oil glands around your hair may make more oil if you massage or rub your scalp a lot.

If the shampoo does not improve your dandruff problem after one month, return to sick call.

ATHLETES FOOT

Athletes' foot is caused by a fungus. Fungi like to grow in warm, moist places. Do the following if you have athletes' foot:

1. Keep your socks & shoes off whenever possible. Don't sleep with your socks on.
2. Wash your feet with warm, soapy water every day, pat dry between your toes. Dry your feet last to keep from spreading the fungus.
3. If you have shower shoes be sure and wear them when you shower.
4. If you have canvas shoes, wear them during the day.
5. Wear socks (white cotton if you have them). Put clean socks on every day. Put socks on before your underwear to keep the fungus from spreading.
6. Apply antifungal cream to the athletes' foot area 2 times daily after you wash your feet; rub the cream in well – it doesn't take much. Wash your hands before and after you apply the cream. Use the cream as directed by the medical staff.
7. Notify the medical staff if any of the following occur:

Increased redness

Increased swelling

Heat

Pus formation

Red streaks

Increased pain.

INSOMNIA

Some of the things you can do for yourself if you are having trouble sleeping are:

1. Reduce and/or stop drinking caffeine drinks. These include coffee, brown tea, colas and some other soft drinks.
2. DO NOT take naps during the day, or during the evening.
3. Exercise during the day to help tire yourself. This will also help reduce stress.
4. Go to bed at the same time each night. When you are drowsy and can't sleep, get up and read a book or write a letter until you get drowsy; then go back to bed. You may need to repeat this procedure several times.
5. Get out of bed at the same time each day.
6. Discuss your problems with the staff chaplain, or other mental health professionals if available.

Over time, the ideas listed above should help you get your sleep problems under control. Your body has a natural "clock" built into it; sometimes it needs to be corrected. If you have had sleep problems for a long time, or were using drugs and/or alcohol prior to incarceration, it will take time for you to adjust. If you are new to the jail or are getting out soon, you will probably have some sleeping problems. Medications won't cure the problem. Time and effort from you probably will.

Medical Grievances

Grievances concerning medical care and/or treatment will be assigned to the Lieutenant by the complaining inmate, using the grievance icon on pod kiosk.

The Lieutenant will investigate the complaint and respond back to the inmate. The Lieutenant's decision is final and is not subject to appeal.
